Preface

This catalog, which is published primarily for ERS internal administrative purposes, covers publications and conference papers by ERS staff (or sponsored by ERS) that were published (or, in the case of conference papers, presented) in fiscal year 1987 (October 1986–September 1987). This catalog is comprehensive as far as ERS periodicals, situation and outlook reports, and monographs are concerned. Other publications by ERS staff or sponsored by ERS are included only to the extent that they were reported in fiscal year 1987 progress reports. For information on how to obtain an ERS publication listed here, contact the Information Division (202-786-1515). Inquiries about other publications and conference papers listed here should be directed to the authors.
